

Kinesis Freestyle Pro

The Best just got Better

The award-winning Freestyle Pro keyboard offers the same advanced ergonomic features as the popular Freestyle2, but with the additional benefits of powerful onboard programmability and premium Cherry MX brown mechanical key switches (low-force, tactile feedback).

Product code:

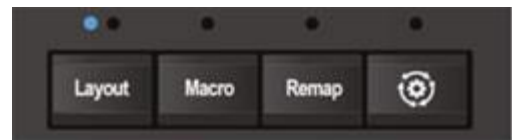

KB900

Premium mechanical switches

The Freestyle Pro features low force Cherry Brown MX switches. Brown switches feature a tactile for maximum ergonomics and a low activation force of 45 grams, providing the ultimate typing comfort and durability

Customise any key

No clunky software or special drivers to install. Record Macros, re-map keys and switch between custom layouts via onboard shortcuts, or the SmartSet programming app.

8 office hot keys

Use the eight office hotkeys or program your own shortcuts to boost productivity and eliminate awkward keystrokes.
