### specifications

- Seat width - 500mm
- Seat depth - 450mm
- Seat height range - 410-580mm
- Back width - 445mm
- Medium Back height range - 400-470mm
- High Back height range - 500-570mm

### Gregory Posture Support System™

- The pelvis gently 'sinks' into the seat and is supported in the softer section at the back of the chair
- The firmer foam at the front prevents the pelvis from sliding forward
- The spine is maintained in the healthy, upright 'S' curve of good posture
- A shaped 'waterfall' front edge improves circulation behind the thighs
